

Gray Davis, Governor

STATE CLEARINGHOUSE

NEWSLETTER

January 16 through 31, 2003

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **January 16 through 31, 2003.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse.html#clearinghouse

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Brian Grattidge (for projects in Northern California)
Scott Morgan (for projects in Southern California)

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

CEQA & Planning Case Law

Summary of Recent CEQA & Planning Case Law

The following are summaries of recent court cases relating to the California Environmental Quality Act and/or land use planning law.

No Cases have been selected for the period of January 16-31, 2003.

Please be advised, the information contained in these summaries does not constitute legal advice, nor should the summaries be relied upon as a matter of law. Refer to the full text of the cases cited for the complete ruling and case facts.

DATE: AUGUST 12, 2002

TO: ALL CEQA LEAD AGENCIES

FROM: TERRY ROBERTS, STATE CLEARINGHOUSE

RE: CONFIRMATION OF RECEIPT FOR NOTICES OF DETERMINATION

We regret to inform you that the State Clearinghouse will no longer be able to honor requests for written confirmation of the posting of a Notice of Determination (NOD) or Notice of Exemption (NOE) with the Governor's Office of Planning and Research (OPR). In the past, and as a courtesy, we were able to comply with requests for written confirmation. However, due to recent budget cuts and an increasing volume of special requests, we can no longer provide such confirmation, either by mail or by fax.

Sections 15075 and 15094 of the CEQA Guidelines spell out the responsibility of the State Clearinghouse to post NODs. Section 15062 (c) of the Guidelines spells out the responsibility of the SCH to post NOEs. We realize the importance of timely posting because this begins a statute of limitations on court challenges. OPR will continue to post NODs and NOEs in a timely manner and enter the notice information in our online CEQAnet database.

If you fax a NOD or NOE to the State Clearinghouse, please retain the fax confirmation for your records. If you file a NOD or NOE with us in person, please provide a second copy of the document and we will at that time be happy to date stamp and return it to you immediately. If you mail a NOD or NOE to us, you may call the State Clearinghouse at (916) 445-0613 to request verbal confirmation of receipt, or obtain written confirmation of posting by printing a report from the CEQAnet database at www.ceqanet.ca.gov.

We apologize for any inconvenience this may cause and will continue to provide the best possible service to the public within our means.

CEQA Documents

Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

CEQA Actions

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Thursday, January 16, 2003</u>			
2002051086	Palisades Landmark Condominium Project Los Angeles, City of Los Angeles, City of--Los Angeles Vesting Tentative Tract Map #52928, Coastal Development Permit, and Site Plan Review for the demolition of 20 existing apartment units and the construction of 25 three level town houses (3,000 sf each), and 57 for level, three-bedroom condominiums (2,400 sf each) with 205 parking spaces.	EIR	03/03/2003
2002074009	Orbital Reentry Corridor for the Generic Unmanned Lifting Entry Vehicles Landing at Edwards Air Force Base U.S. Air Force Lancaster--Kern, Los Angeles, San Bernardino The proposed action is to designate an orbital reentry corridor for the recovery of flights of generic unmanned Lifting Entry Vehicles (LEVs) from low earth orbit to final approach at Edwards Air Force Base in support of future Air Force and NASA research and development programs. The generic LEV reentry corridor is defined by the trajectory (ground track and altitude) of a vehicle as it reenters the earth's atmosphere from space.	FIN	
2003011068	North Rialto Warehouse Distribution Center Project Rialto, City of Rialto--San Bernardino Within the approximately 220-acre project site, the proposal provides for necessary site preparation and grading, and construction of new warehouse distribution facilities totaling approximately 3.3 million square feet. The project also provides for employee and truck trailer parking areas, designated outdoor storage areas, landscaping, screening, and all supporting roadway and infrastructure improvements.	NOP	02/14/2003
2003011069	Visalia Community Stadium Visalia Unified School District Visalia--Tulare The project is the construction of a community sports stadium. The proposed site is a six-acre area, located just west of McAuliff Road, north of Golden West High School and south of the St. John's River. The site is located in the northeast area of Visalia. The stadium will seat 4,500 spectators, and will be designed to hold soccer, football, and track events. A total of 1,460 parking spaces will be available for stadium events. Additionally, the stadium will be lighted to allow nighttime events.	NOP	02/14/2003
2003011074	2003 Update of the Civic Center Specific Plan Santa Monica, City of Santa Monica--Los Angeles Update to the Specific Plan for a 62-acre site. The Specific Plan allows for the development of up to 16.4 acres of public open space, 675 units of mixed-use multifamily housing with 20,000 square feet of new ground-floor commercial retail, 150,000 square feet of public and community facilities, 560,000 square feet of reconfigured or reconstructed commercial retail, 85,000 square feet of commercial office, and associated street and parking improvements.	NOP	02/14/2003

<u>Documents Received on Thursday, January 16, 2003</u>			
2003011075	Abalone Aquaculture on a State Water Bottom Lease Adjacent to Point Loma, California Fish & Game Commission San Diego--San Diego The objective of this aquaculture project is to develop an economically sustainable and environmentally sound marine aquaculture activity on leased state water bottoms adjacent to Point Loma utilizing pink (<i>Haliotis corrugata</i>) and red abalone (<i>Haliotis rufescens</i>). It is proposed by the project proponent that the harvest of planted abalones would be allowed after a determination that a minimum of a fifty-fold increase in abalone populations on the lease had occurred.	NOP	02/14/2003
2003011063	CUP02-063, CUP02-065, CUP02-066, CUP02-067, CUP02-134, CUP02-135 Los Angeles County Department of Regional Planning Malibu, Westlake Village--Los Angeles Six conditional use permits to authorize installation of wireless telecommunications facilities on six separate utility poles within the Santa Monica Mountains. 2.46 cubic feet of equipment will be placed on each pole. CUP02-063 is located within 100 feet of a drainage course, 200 feet of Los Alisos ESHA and requires an ERB review. CUP02-065 and CUP02-135 are located within Santa Monica Mountains National Recreation Area's property, and fall within the Western Wildlife Movement Corridor and require an ERB review. All six projects will receive power from existing power lines on the poles and neither will necessitate trenching. Cooling fans will not be used for the projects.	Neg	02/14/2003
2003011064	Well 5A Development Project Clovis, City of Clovis--Fresno This well site will provide groundwater for domestic use that will be pumped into the City's water supply distribution system. After all construction, the site may be expected to include various pieces of associated equipment and machinery, a 6-foot wall or fence and landscape screening for aesthetic purposes.	Neg	02/14/2003
2003011065	East Valley Water District's Plant 132 Well Rehabilitation / Development Project East Valley Water District Highland--San Bernardino EVWD is proposing to rehabilitate existing wells and/or construct new wells at its Plant 132 site. Water produced at Plant 132 contains higher than acceptable concentrations of nitrates. This project includes the installation and operation of a nitrate removal system and a water disinfection system to treat water extracted from the wells. Pipelines will be installed to convey the treated water to EVWD's existing water distribution system.	Neg	02/14/2003
2003011066	Herb Meyer/E. W. Herold Trust - Agricultural Subdivision Monterey County Planning & Building Inspection Gonzales--Monterey Minor Subdivision of approximately 600 acres of agricultural property between the City of Gonzales and the Salinas River. The parcel map proposes to create eight agricultural parcels of 40 acres or larger (per section 19.04.005 of the Subdivision Ordinance). Portions of the property are within the City of Gonzales' Sphere of Influence. Portions of the property are within the 100-year flood plain. No land use changes or construction of structures are proposed. (The City of Salinas owns/leases a .31 acre portion of proposed Parcel #1 which will be unaffected by this proposal). The subject property is west of the S.P.R.R. tracks and Business 101 (Alta Road), (Assessor's Parcel Numbers 223-061-003-000 and	Neg	02/14/2003

	223-061-004-000), and extends southwest of the City of Gonzales to the Salinas River, Central Salinas Valley area.		
2003011067	<p>Re-irrigation of and Type E Transfer on the Laws Ranch Lease Los Angeles County Department of Water and Power --Inyo</p> <p>The project includes the following actions: (1) the resumption of irrigation on an area of Los Angeles-owned land in the Laws area of the Owens Valley, a portion of which is commonly known as the Laws Ranch, (2) adoption of an amendment to the Inyo County/Los Angeles Long Term Water Agreement ("Water Agreement") to modify the management map in regard to a change in the location of Type E vegetation in the area of Laws that is part of this project, (3) the conversion of 596 acres that were previously flood irrigated with a duty of 5 acre-feet per acre to sprinkler irrigation with a duty of 3 acre-feet per acre, (4) the exemption of two wells (Well 236 and Well 413) from ON/OFF management under the Water Agreement, (5) the construction of approximately 2.5 miles of water pipeline along Jean Blanc Road and Joe Smith Road, (6) the conversion of lands that were formerly cultivated to pasture, and (7) the conversion of approximately 39 acres of the Laws Historical Museum enhancement/mitigation project from flood irrigation to sprinkler irrigation.</p>	Neg	02/14/2003
2003011070	<p>Specific Plan Amendment (SPA) 84-01 III, City of Poway, Applicant Poway, City of Poway--San Diego</p> <p>The project is a City-initiated request to change the existing land use designation of a 26.49 acre portion of the vacant, 31.49-acre property located at the southeast corner of Scripps Poway Parkway and Tech Center Drive. Scripps Poway Parkway is designated as a regionally significant arterial in the San Diego County Congestion Management Program (CMP). A 5-acre portion of the site immediately at the street intersection is designated South Poway Commercial (SPC). The remaining 26.49 acre portion of the property is designated Light Industrial (LI). The proposal would change the LI designated portion of the property to SPC. The proposed change is being pursued to anticipated development of a retail commercial project on the site, which will be processed under separate land use entitlements at a future date. The project also involves elimination of a City requirement for the provision of a mini-park. This analysis assumed a worst case development potential consisting of an approximately 149,000 square foot discount club store with a gas station, and an approximately 134,000 square foot home improvement store.</p>	Neg	02/14/2003
2003011071	<p>Pacheco Water District Internal Land Purchase Pacheco Water District Dos Palos--Merced</p> <p>Pacheco Water District intends to purchase 21.3 acres of land. The property is currently fallowed agricultural land with four irrigation wells. Pacheco Water District intends to maintain the property as fallowed land, abandon two of the wells on the property and use one well to add approximately 1,200 acre feet of water per year to its irrigation system. The District currently has no plans to operate the fourth well. The property will not be farmed but will be managed and kept clean.</p>	Neg	02/14/2003

2003012060	Business and Technology Building California State University, Hayward --Alameda This project will construct a classroom/office building of approximately 6,500 square feet on a site in the central campus core using private/state funding and supporting business, multimedia and engineering programs.	Neg	02/14/2003
2003012061	Foskett Ranch Elementary School Western Placer Unified School District Lincoln--Placer The Foskett Ranch Elementary School site, approximately 14.9 acres will be acquired by the Western Placer Unified School District (District) in preparation for the development of school buildings and related facilities. The Project includes play areas, picnic areas, hard courts, and an outdoor auditorium. The school will use the playfields proposed in the City of Lincoln Regional Park adjacent to the school through a sharing arrangement. The project involves construction of approximately 57,042 square feet of school administrative and classroom space. A total of 266,432 square feet of planted turf and landscaped area is anticipated. Access points from Venture Drive, Street "A," parking lots, sidewalks, curbs, gutters, and related improvements are included as a part of the school development project. Approximately 326,119 square feet of paving is anticipated (including 87 parking spaces). Approximately 65 parking spaces will be available for school overflow parking at the City Regional Park adjacent to the school. Grading on the site is expected to commence in the spring of 2003. Construction is expected to commence in the fall of 2003. This schedule is subject to change.	Neg	02/14/2003
1987042909	Main Street/MacArthur Boulevard Intersection Improvement Project Santa Ana, City of --Orange The proposed project involves the acquisition of portions of properties and the establishment of easements located at 3414 South Main Street, 100 West MacArthur Boulevard and 110 West MacArthur Boulevard to implement roadway improvement mitigation measures provided in the EIR for the MacArthur Place development project.	NOD	
1990011169	Alameda Corridor Project Alameda Contra Costa Transit District Los Angeles, City of--Los Angeles CDFG is executing a Lake Streambed Alteration Agreement (Agreement) pursuant to Section 1601 (SAA #5-2002-0367) of the Fish and Game Code to the project applicant, Mr. David Roger, Alameda Corridor Transportation Authority. The applicant proposes to alter the streambed and banks of Dominguez Channel by replacing the existing Storm Drain Outlet with a new outlet structure to accommodate the new storm drain. The new drain will replace the existing drain and provide for drainage on the Alameda Corridor Tracts, and the existing drainage facilities to be abandoned. The work will include demolition of the existing outlet structure upon completion of the new facilities. The property is surrounded by recreational, industrial and commercial properties. The proposed project shall not impact more than 0.01 acre of stream channel, no riparian vegetation shall be impacted.	NOD

2003018219	Roof Stabilization - Burdell Mansion Parks and Recreation, Department of --Marin Repair and extend temporary protective structures sheltering exposed roof areas of historic Burdell Mansion at Olompali State Historic Park to prevent weather damage and preserve structural integrity. Remove existing, decayed support beams and posts, pour new concrete footing, and then install new posts, beams, and corrugated roofing material. Install removable plywood and stud walls at mansion openings to prevent unauthorized access and weather exposure. Project preserves and protects cultural resources.	NOE	
2003018220	Maintenance Shop Relocation Parks and Recreation, Department of --Marin Temporarily relocate Maintenance shop currently located within Frame House at Olompali State Historic Park to the lower level of historic Burdell Barn. Restoration of Frame House will permanently displace Maintenance shop. Pour concrete floor, then install removable wall sections. All work will be reversible and will not affect the historic fabric or integrity of structure. Project supports administrative and maintenance services for park.	NOE	
2003018221	Split Rail Fences Installation Parks and Recreation, Department of --Marin Install two separate split rail fences at Creekside campsite #1 and Redwood Grove picnic area in Samuel P. Taylor State Park. Fences will reduce stream bank erosion into nearby creek by preventing volunteer foot traffic. Project protects natural resources.	NOE	
2003018223	Overflow Culvert, Under Hwy 150 into Lake Casitas Caltrans Ojai--Ventura The Operator proposes to alter the streambed by constructing a secondary drainage overflow culvert due to sedimentation/flooding problems to SR 150 with the existing culvert. The new culvert will consist of two 2.1m reinforced concrete pipes to be installed above and offset from an existing 2.4m diameter reinforced concrete pipe. A boring machine will be used to drill a hole through the ground and a horizontal jack will push the new concrete pipe into place. Concrete headwalls will be installed at the inlet and outlet, and rock riprap will be placed below the inlet to dissipate energy. Rock will also be placed below the culvert inlet to protect against scouring below the headway, but will not impact the existing stream.	NOE

2002021060	Anza-Borrego Desert State Park Parks and Recreation, Department of --San Diego, Riverside, Imperial To meet requirements set forth in Section 5002.2 of the Public Resources Code and Section 4332 of Title 14 of the California Administration Code, The California Department of Parks and Recreation is preparing a General Plan for the park. This plan will delineate a number of resource management zones and a set of goals and guidelines will be developed for each zone, which will guide park management, specific project management, and implementation. These goals and guidelines will address recreational, operational, interpretive, and resource management opportunities and constraints.	EIR	03/03/2003
2001122073	Cypress Grove Oakley, City of Oakley--Contra Costa The applicant has proposed land use designations for the 147 acres in order to allow the future development of up to 637 housing units (541 single-family and 96 multi-family units). The applicant includes a Planned Development in order to address the type and quality of future residential development. The applicant also includes a request for approval of tentative maps and design review to develop the 637 housing units.	NOP	02/18/2003
2003011082	Preserve at San Marcos Santa Barbara County Santa Barbara--Santa Barbara The proposed project would involve the subdivision of 377 acres of undeveloped land into 17 separate parcels encompassing 177 acres and one designated remainder parcel encompassing 200 acres. Of the proposed 17 individual parcels, 15 would be designated for single family residential development ranging in size from 3.53 acres to 32.47 acres. Development of each of these lots would be restricted to "landscaping and development enveloped" (LDEs) ranging in size from 1.45 acres to 3.79 acres. The remaining portions of these 15 lots would be restricted as "private conservation areas (PCAs) subject to conservation easements. The 16th parcel would be designated for the development of up to five (5) condominium units as "affordable housing". The 17th parcel would encompass 10 acres and be dedicated to the County as a public park. No development is proposed for the 200 acre designated remainder parcel.	NOP	02/18/2003
2003011084	Hanson Aggregate Mining/Processing Operations and Reclamation Plan Irwindale, City of Irwindale--Los Angeles Hanson Aggregates West, Inc. currently operates an aggregate mine and processing plant in accordance with a Conditional Use Permit (CUP) issued in 1980, which permits dredging in the existing water body throughout the year 2005, to a depth of 150 feet above mean sea level (msl), or approximately 200 feet below the surrounding surface grade elevation. The proposed project involves the continued excavation/processing operations at the site to an elevation of 0 feet msl through the year 2030, and implementation of a reclamation plan which would result in an ultimate end use combining commercial, industrial, and recreational uses, and a 330-acre freshwater lake. 2003011076	Tank Farm Road Bridge Silt Removal Project (ER 107-02) San Luis Obispo, City of San Luis Obispo--San Luis Obispo Removal of silt build-up within the culvert where a tributary of the East Fork of San Luis Creek passes under Tank Farm Road. Mechanical equipment required for silt removal would consist of a bob cat tractor to be lowered into the culvert from the Tank Farm Road Bridge, along with a backhoe and dump truck that would be stationed on the north side of the bridge. Personnel accessing the culvert would utilize an existing path on the creek bank on the north side of the bridge.	Neg	02/18/2003
2003011077	Tentative Tract Map No. 16014 and Tentative Parcel Map No. 16039 Highland, City of Highland--San Bernardino A Tentative Tract Map to create 271 single family residential lots on the 116.32 acre subject site. Lots will range in size from 8,000 square feet to 10,500 square feet.	Neg	02/18/2003
2003011078	Project No. CUP 02-244; 02-245; 02-246 Los Angeles County Department of Regional Planning Calabasas--Los Angeles Applications for Conditional Use Permits to authorize the construction, operation, and maintenance of unmanned telecommunications facilities for cellular telephones that will include mounting two (2) omni antennas and related equipment on existing utility poles (61' for CUP 02-244 and CUP 02-245; 44' for CUP 02-246). The projects will also include constructing 38.25"W x 20.75"D x 55"H PBMD equipment shelters approximately 10' from the existing utility poles. The proposed facilities will operate 24 hours per day, 7 days per week. The applicant will have the equipment cabinets painted a tan color to match the surroundings along Malibu Canyon Road. Additional landscaping may be provided to assist in mitigating the proposed ground mounted equipment shelters.	Neg	02/18/2003
2003011079	Community Park Annexation to the Lockeford Community Services District San Joaquin County Local Agency Formation Commission --San Joaquin To annex three parcels totaling 22.7 acres, plus street, access and former railroad rights-of-way to the Lockeford Community Services District. 2003011083	<p>CUP 02-212 14968 Mulberry Drive, Whittier, CA 90604 Los Angeles County Department of Regional Planning Whittier--Los Angeles</p> <p>The proposed project is a request for a Conditional Use Permit to allow for the construction and operation of an adult day facility providing treatment and services for adults with mental handicaps. The proposed facility will consist of a two-story building (10,062 sq.ft. of building area), and twenty-nine (29) parking spaces. Primary auto access to the site is provided on Mulberry Drive and on La Mirada Boulevard. The facility will operate from 9:00 am to 2:00 pm. The anticipated client capacity of the proposed facility will be a maximum of 45 (forty-five) adult clients who will be transported by a maximum of ten (10) vanpools to the facility each morning at 9:00 am and from the facility at 1:30 pm. A maximum of fifteen (15) employees are anticipated to work at the facility, Monday-Friday 8:30 am to 4:30 pm. Ten of these employees will work 8:30 am to 2:30 pm; five will work 8:00 am to 4:00 pm.</p>	Neg	02/18/2003
2003012063	<p>West Eighth Avenue Road Improvements Project Butte County Chico--Butte</p> <p>The project includes improvements to West Eighth Avenue and associated sewer and storm drainage improvements along West Eighth Avenue and West Eleventh Avenue in Butte County and in the City of Chico, including:</p> <p>Acquisition of additional public right-of-way will be required for sidewalks and left turn pockets from Arcadian Avenue, west to Highway 32 (Nord Avenue). The existing utilities and overhead power lines will remain in place or may be relocated within the right-of-way. Power drop-lines, commercial lines and service feeds, and gas and water main service laterals may need to be relocated.</p> <p>The construction of a sanitary sewer will connect to the City of Chico sewer system, completing prior work on this system in the area.</p> <p>Storm drainage facilities will be constructed to connect five infill locations and the drainage inlets for roadside drainage. The Project is consistent with the City of Chico Storm Drainage Maser Plan.</p> <p>In general, the roadway section is to include two 11-foot travel lanes, two 5-foot bike lanes, and medians at various locations to provide traffic separation and pedestrian refuge areas.</p> <p>The existing roadway horizontal alignment will be adjusted in certain sections to facilitate the installation of roundabouts.</p> <p>Construction is expected to commence in the summer of 2003 with utility relocation, with Project completion by 2005. The schedule is subject to change.</p>	Neg	02/18/2003
2003012064	<p>Loomis Grammar School Expansion Project Loomis Union School District Loomis--Placer</p> <p>The project would expand Loomis Grammar School in order to replace existing portable classrooms with permanent buildings, upgrade recreational facilities, and improve substandard components within existing buildings. Other project components: add a multipurpose room, realign and add parking spaces, replace and upgrade recreational facilities, realign the entry into the site from Taylor Road, and undertake the State Modernization Project (facility upgrades including replacement of ceiling tiles, flooring, HVAC, painting, and other interior improvements). The Project consist of three separate components: 1) Site Acquisition of an expansion area 2) New Construction, and 3) Operation of the facilities.</p>	Neg	02/18/2003

1997022074	Draft Supplemental to the Revised Twelve Bridges Specific Plan SEIR Lincoln, City of Lincoln--Placer Involves the construction on a public library on approximately 5 acres of land. The library is planned to contain approximately 37,500 square feet and 140,000 volumes, contain one multipurpose room (140 square feet) a computer lab and homework center. The facility will serve as a joint use facility serving the general public, junior college students and high school students.	NOD	
2000021111	UC Irvine Medical Center Long Range Development Plan and Replacement Hospital University of California, Regents of the Orange--Orange The proposed project is the adoption of the 2003 Long Range Development Plan (LRDP) for the UC Irvine Medical Center, and design approval for the Replacement Hospital within the UCIMC. The 2003 LRDP identified planning objectives, a development program, a physical planning framework to organize the site, planning zones to guide the siting of facilities, and establishes general design principles to guide the design of future facilities. The LRDP will allow for the phased reuse of the site with intensification of facilities. The LRDP proposes an overall increase of 991,684 gross square feet (gsf) of space (over the existing 910,365 gsf) for a total of 1,902,049 gsf by 2020. The campus also proposes to increase the number of beds by 136 over existing use of a total of 527 beds, or 69 above the existing 453 licensed beds. The proposed first project under the LRDP is the Replacement Hospital. The proposed replacement hospital is comprised of three main elements: the construction of a new hospital, renovation and non-structural SB 1953 bracing in Building 1A, the new chiller/ emergency generator plant and other utility upgrades. The proposed hospital would replace Building 1, and would provide 409,000 gsf of space to accommodate 191 beds, and 13 operating rooms, other diagnostic and treatment facilities, administrative and support services and other acute care functions. Shell space of 25,000 square feet would be constructed but left unfinished to enable the future addition of another 30-bed medical/ surgical unit when funding becomes available.	NOD	
2001052004	Valley of the Moon Children's Home Community School Sonoma County Santa Rosa--Sonoma The Sonoma County Office of Education (SCOE) proposes to develop a school facility on a 1.5 acre site located at the Children's Home within the County's existing Los Guilucos center. Under present conditions, residents of the Valley of the Moon Children's Home are taught in classrooms located in other facilities within the existing Los Guilucos center, however such facilities do not adequately meet the needs of the students. The school includes approximately 40 students, 2 teachers and 1 to 2 other staff members. The grade levels in the program are K through 12. The proposed project will serve the existing residents of the Children's Home, therefore, the project does not represent an expansion of the existing school use. The proposed school will not serve children in the Los Guilucos Juvenile Detention Center. The new facility will consist of a total of three (3) modular structures, including two classroom units and a gymnasium. The facility will also feature a parking lot with capacity for 12 vehicles. The project site is located within the City of Santa Rosa, and will receive City sewer and water service from existing infrastructure within the Los Guilucos center.	NOD

2001121130	City of Guadalupe School Lake and Wetlands Restoration Project Guadalupe, City of Guadalupe--Santa Barbara SAA # 5-2002-0213 Restore the lake and adjacent wetlands by removing non-native species, planting native vegetation, and adding an education component, which includes, hiking and biking trails, overlook, parking lot, bathrooms, and amphitheater.	NOD	
2002042119	Surgery and Emergency Services Pavilion University of California, Regents of the Sacramento--Sacramento The proposed project is to construct 414,930 gross square feet (asf) in a three-story addition to the existing Davis Tower on the UC Davis Medical Center campus. The building will provide replacement space for several acute care functions now located in seismically deficient North/South hospital wings, and additional space to meet current code and programmatic requirements. Eight vacant and seismically deficient buildings will be demolished within the next two years to clear the site for the Pavilion project. The North/South Wings will be demolished once all occupants have relocated into the Pavilion building.	NOD	
2002111024	Oceanside Harbor Boat Launching Facility (RC-20-02) Oceanside, City of Oceanside--San Diego The proposed project is the expansion of the boat launching ramps from 4 to 6 lanes and related improvements to the parking lot and boat wash-down area.	NOD	
2002111024	Oceanside Harbor Boat Launching Facility (RC-20-02) Oceanside, City of Oceanside--San Diego The proposed project is the expansion of the boat launching ramps from 4 to 6 lanes and related improvements to the parking lot and boat wash-down area.	NOD	
2002112045	Yuba Goldfields Fish Barrier Project Yuba County Water Agency Marysville--Yuba The Yuba County Water Agency will construct a new fish exclusion barrier at the outlet of the Waterway 13 return channel into the lower Yuba River to prevent the migration of Chinook salmon and steelhead into the Yuba Goldfields. The project involves the replacement and improvement of an existing fish exclusion barrier.	NOD	
2002121033	Big Bear City Community District Groundwater Exploration and Well Test and Development Program Big Bear City Community Services District --San Bernardino The Big Bear City Community Services District (District) provides water to 5,120 acres of land serving approximately 7,900 full-time residents (year 2000 estimate). Water is supplied from nine vertical wells, two slant wells and two spring wells. The slant wells and spring wells are gravity fed and are, therefore, dependent upon water table levels and produce more during wet years than during dry years. In order to provide sufficient supply for existing and projected demand, the District has determined it is necessary to locate additional well sites to maintain water supplies during the current drought. The proposed project is the drilling of three test wells at various locations on the southerly side of Bear Valley to evaluate the potential water production capacity and water quality at each site. 	operational flexibility to better balance their treatment, storage, and disposal of tertiary treated effluent. GCSD would have the ability to adequately store recycled water during inclement weather and to accommodate increased influent flows from SRSZ during large storm events. The Lodge's expansion project would include connection of the Lodge to the central plant and would increase influent flows to the central plant. Transferring combined wastewater flow from the central plant and Lodge to the north plant would take advantage of the north plant's underutilized treatment capacity.		
2003012070	Mesa Ridge Subdivision Gilroy, City of Gilroy--Santa Clara The proposed project includes the subdivision of 19.2 acres for residential use. The project includes 60 residential lots ranging from 6,105 to 15,080 square feet, two open space parcels totaling 5.4 acres, and a 0.4-acre remainder parcel with no indentified intent. The proposed project also includes private streets, improvements to Miller Avenue, and water, storm drain, and sanitary sewer improvements.	NOP	02/19/2003
2003012074	Weaverville Community Fuel Reduction Project - Program Timberland EIR Forestry and Fire Protection, Department of --Trinity The project proposes changing existing conditions on private non-industrial forestlands in order to reduce the effects of wildland fire on the community of Weaverville through: treating ground fuels; thinning; harvesting; and establishing fire breaks. Activities will include timber harvest; skid trail, landing, and road construction; construction and/or use of stream crossings; prescribed burning; slash piling; chipping and/or other treatments.	NOP	02/19/2003
1997032020	Evergreen Re-Refinery Project Newark, City of Newark--Alameda Increase the used oil re-refining capacity of the existing plant, add a used oil-to-fuel refining system, and provide storage, consolidation, and transfer facilities for wastes generated by customers.	Neg	02/19/2003
2003011085	Fowler Library Project - Initial Study Application No. 4812 Fresno County Fowler--Fresno The project proposes acquisition of a 37,500 square foot parcel for development and operation of an 8,000 square foot public library.	Neg	02/19/2003
2003011087	Lake Hodges Bridge Geotechnical Borings San Diego, City of San Diego--San Diego Site Development Permit No. 6021 for two hollow-stern auger borings and six cone penetration tests for a future bridge over Lake Hodges. The proposed project is located west of Interstate 15, running north from West Bernardo Drive across Lake Hodges, in AR-1-1 zone of the Rancho Bernardo and San Pasqual Valley Community Plans. 2001012007	Application to Appropriate Water Application No. A029013 State Water Resources Control Board, Division of Water Rights Seaside--Monterey Applicant is requesting a water right to divert to storage 18 acre-feet (AF) of water annum. Water collected to storage pursuant to this application will be used for recreation and fire protection. Water will be diverted from December 1 through March 1 from Love Creek into an existing on-stream reservoir. Water not authorized for storage and use is passed through the dam via a three-inch outlet pipe located near the bottom of the reservoir. The reservoir is located approximately two miles southwest of the community of White Pines in Calaveras County.	NOD	
2002101118	Park View Estates Chula Vista, City of Chula Vista--San Diego The proposed project consists of the subdivision of an approximate one-acre parcel into 5 single-family residential lots; one single-family residence exists. The proposed lot sizes average over 5,000 square feet and the proposed density of five dwelling units per gross acres is consistent with the low-medium residential General Plan designation of the property. The project site is within the City's Southwest Redevelopment Project Area. The proposal requires a Tentative Subdivision Map to be considered by the Planning Commission and City Council.	NOD	
2002111111	Proposed Elementary School (K-6) Lemoore Union Elementary School District Lemoore--Kings The Lemoore Union Elementary School District proposes to develop a 12.43-acre elementary (K-6) school site on the north side of Cinnamon Drive and west of 19th Avenue. The new school would be designed for an ultimate capacity of 600 students. The elementary school will be a full service school with a complete range of educational services.	NOD	
2002112066	Williams Subdivision Humboldt County Planning Department --Humboldt A Minor Subdivision of a +/- 22 acre parcel into three parcels of 5.73 acres, 11.5 acres, and 5.0 acres, respectively. The subdivision will site the three existing residences and associated accessory buildings onto their own parcels.	NOD

<u>Documents Received on Tuesday, January 21, 2003</u>			
2002112086	<p>Jefferson Boulevard Widening Project West Sacramento, City of West Sacramento--Yolo</p> <p>The proposed project would widen a 2.58-mile (4.15-km) segment of Jefferson Boulevard to four lanes between Stone Boulevard and Marshall Road, upgrade and signalize existing intersections, install a new fixed-span bridge over the Yolo Barge Canal to serve southbound traffic, and modify the existing bascule bridge to serve northbound traffic. The project would also modify the existing storm drainage system along Jefferson Boulevard, by culverting existing open drainages and expanding the Morton-Blacker Canal crossing at Jefferson Boulevard. These improvements are intended to improve traffic flow through the Southport Area, and provide infrastructure improvements necessary to allow development under the Southport Framework Plan. The proposed project is a reduced-scale version of a project previously evaluated in a 1996 Environmental Assessment/Initial Study (EA/IS), but never constructed.</p>	NOD	
2002121054	<p>Farber Jefferson Street Condo Carlsbad, City of Carlsbad--San Diego</p> <p>Airspace subdivision of an 11 unit condominium project including two affordable units.</p>	NOD	
2002121072	<p>Lewis Elementary School Silver Valley Unified School District --San Bernardino</p> <p>The SVUSD proposes to construct 5 additional permanent classrooms for the purposes of expanding the existing campus of Lewis Elementary School ("Project"), located at the National Training Center at 1800 Blackhawk Street in Fort Irwin. The Lewis Elementary School classroom additions will serve the needs of the District and the community it serves. The purpose of the Project is to provide educational facilities for elementary school students within the District.</p>	NOD	
2002121073	<p>Yermo Elementary School Silver Valley Unified School District --San Bernardino</p> <p>The SVUSD proposes to add eight portable classrooms for the purposes of expanding the existing campus of Yermo Elementary School ("Project"), located at 38280 Gleason Street, to accommodate approximately 140 additional seventh and eighth grade students transferred to Yermo Elementary School from Daggett Middle School. The Yermo Elementary School portable classroom addition and school expansion will serve the needs of the District and the community it serves. The purpose of the Project is to provide educational facilities for elementary school students within the District.</p>	NOD	
2002122009	<p>Dorris Agricultural Station Relocation Project Food and Agriculture, Department of Dorris--Siskiyou</p> <p>The California Department of Food and Agriculture is proposing to construct a new agricultural inspection station to replace the existing station located in the City of Dorris because of the impending realignment of State Route 97 which would bypass the existing station. The new facility would include an administrative building, two inspection buildings, employee and truck parking, and will provide 4 passenger vehicle lanes and 3 truck lanes.</p>	NOD

2001011086	Black Mountain Road Pipeline (SAA R5-2003-0015) San Diego, City of San Diego--San Diego Alter the stream to remediate the diversion of the stream through a sinkhole into a tunnel being dug beneath the stream as part of the Black Mountain Road Pipelines Project. The remediation project involves diverting the stream by blocking the flow just upstream of culverts associated with an existing crossing, pumping the pooled water to a desilting area downstream of the sinkhole and returning it to Los Penasquitos Creek, then pumping the water in the sinkhole will be clocked to prevent water from back-flowing into the site. Once the water is diverted, a pumper truck will be set up on Black Mountain Road and will pump a slurry mix into the sinkhole to stabilize the tunnel. Any water containing slurry will be pumped back into the tunnel or into an existing desilting tank to settle. Native riparian habitats found on site include: southern willow scrub, freshwater marsh, and open water.	NOD

	recontoured and developed into a one directional intermediate track. Fencing will be installed between the two tracks to provide a safe, organized riding area. A bleacher observation area will be installed along the southern fence boundary to allow spectators to safely and comfortably watch riders.		
2003018327	Hill Revegetation Parks and Recreation, Department of --Sacramento The Hill Revegetation area is located within the Prairie City open riding area, to the southwest of Hangtown track, above two sediment basins. A portion of the hillside was unintentionally burnt early in the year, the remaining portion of hillside has endured aggressive motorcycle use over the past few years and is becoming deeply rutted, causing excessive erosion. Fill from sediment basins will be used to cover the degraded hillside (approximately 1 acre) providing a soil base for the native grass seed and fertilizer that will be used to re-vegetate the area. The hillside will be temporarily fenced off from vehicle and pedestrian traffic to allow soil to stabilize and vegetation to become established. Signs will be posted to identify the temporary closure of the restored area.	NOE	
2003018328	Fencing Along Pit Road Parks and Recreation, Department of --Sacramento Fencing will be placed along both sides of Pit Road, from the entrance gate to approximately 1/2 mile south within Prairie City SVRA. Fencing will continue on each side of the road, east and west to the adjacent park boundary. Approximately 8000 linear feet total of fencing will be used. Fencing along Pit Road will be installed 5 feet back from the roadside, peeler core installed every 100 feet, t-posts installed every 10 feet and a walk-through will be placed at each end of the fencing to provide access to pedestrians and park staff. The fencing will provide permanent closure and protection of existing vernal pool habitat from motorized vehicles. Interpretation panels will be installed to educate park users of the importance of vernal pool habitats, seasonal transitions, and plant and animal species.	NOE	
2003018329	Mitchell Ravine Property Stabilization Parks and Recreation, Department of Tracy--San Joaquin Located within the newly acquired Mitchell Ravine property at Carnegie SVRA are numerous vacated structures, concrete, wood and metal structures, fences and garbage, which pose safety concerns and an unsightly landscape. The project will demolish and remove existing vacated structures, barns, sheds, cattle enclosure, water tanks, out-buildings, pool and pumps, garbage, dead trees and fallen fencing. Existing driveways will be paved or re-graveled to provide safe, stabilized year-round access gates will be replaced, utility lines will be re-secured, six water wells will be capped, un-used septic tanks will be removed and one above ground water storage tank will be relocated. Project will include landscaping and revegetation.	NOE	
2003018330	Enhancements to Volunteer Area Parks and Recreation, Department of Tracy--San Joaquin This project will enhance the volunteer area located to the northeast of the park entrance road access from the Ranger Station, by improving water and electricity utility access. An extension from the existing water line within the volunteer area	NOE

	and the existing electric panel on the Ranger Station will be routed underground to the eastern section of the volunteer area using a 1 inch water line and a 3 inch conduit placed within a 2' x 2' trench. The extended service will provide an easily accessible waterspout and a 200 amp service, which is not presently available.		
2003018331	<p>ADA Parking Lot Modification at Visitor Center Parks and Recreation, Department of --Ventura</p> <p>The purpose of this project is to create two new ADA parking spaces adjacent to the CXT restroom at the Hungry Valley SVRA Visitor Center. The existing Visitor Center parking lot will need to be modified and expanded to facilitate the parking spaces and ADA access ramp with landing. Most of the ADA approved modifications will take place within the boundaries of the existing parking lot. However, triangle shaped areas 15' by 18' by 20' of undisturbed vegetation will be cleared and the parking lot will be expanded into that area. Excavation of this area will be to a depth of 6". The current site was completely disturbed during the construction of the Visitor Center in 1995/96. There are no threatened or endangered species or habitats at this site. The soil in this area is a sandy loam of the Gorman Series.</p>	NOE	
2003018332	<p>Rattler Hill Climb Restoration Parks and Recreation, Department of --Ventura</p> <p>The purpose of this project is to re-contour, re-vegetate and close to recreation of the hill climb known as Rattler Hill. This project will control the OHV use on Rattler Hill, reduce erosion and revegetate much of the eroded hill in the process. Heavy equipment will be utilized to re-contour the hill and ridge top, removing the numerous gullies and ruts. At the top of the ridge, the berms of sand and decomposed granite on the sides of the gullies will be removed to facilitate filling the gullies. However, this area is mostly devoid of vegetation due to the previous OHV disturbance. Vehicle control barriers (fencing) will be installed to close the hill. The hill will then be re-vegetated using erosion control devices and a hydro seeding process utilizing eight species of locally collected native grass and shrub seeds. This project will include the use of coir fiber blankets on the steepest slopes to facilitate re-vegetation. This project will require approximately 5,000 feet of vehicle control barriers comprised of both Peeler Pole and 3 Wire fencing materials. The fence will require post-holes approximately 18" deep and 3" in diameter every eight feet.</p>	NOE	
2003018342	<p>Streambed Alteration Agreement Concerning Sweetwater River Chula Vista, City of Chula Vista--San Diego</p> <p>SAA R5-2002-0423 The Operator proposes to alter the stream to remove fill material associated with an existing washed-out golf cart stream crossing, re-contour the bed and banks of the stream to approximate up and downstream contours, and install a golf cart bridge. The 8 foot by 70 foot bridge will completely span the stream, and will be set in place by a crane. The existing crossing will be removed with a backhoe, and fill material washed downstream by previous storm events will be removed by hand. The removal of the existing crossing may temporarily impact up to 0.01 acre of freshwater marsh.</p>	NOE

A second tier of discretionary review, a Community Specific Plan (CSP) would subsequently occur if the proposed General Plan Amendment were approved.	EIR	03/10/2003
2002122008	White Rock Road East El Dorado County Planning Department --El Dorado The El Dorado County DOT proposes to widen, realign, and extend White Rock Road between Latrobe Road and Silva Valley Parkway to include two travel lanes and turning lanes as part of interim improvements and eventually include six travel lanes and turning lanes as part of ultimate improvements, install bike lanes, sidewalks and crosswalks, and improve the existing Dusty Creek culvert.	FIN	
2001102084	Jameson Canyon Project Caltrans #4 --Napa, Solano Caltrans and FHWA propose to improve operations between SR 29 and I-80 with improvements along SR 12. SR 12, also known as Jameson Canyon Highway, serves as a major inter-regional east-west link between southern Napa Valley and the Fairfield / Suisun Valley areas in the North Bay. The two-lane conventional highway is used for commercial, agricultural, commuter, and recreational traffic on a regular basis. With the objective of reducing capacity constraints, improving safety conditions and enhancing operational efficiency in the area, the project would incorporate the following major components: 1) Widen a 9.5 km (5.9 mile) stretch of SR 12 from two to four lanes between Kilometer Post ("KP") 0.0-5.3 (Post Mile [PM] 0.0-3.3) in Napa County and KP 0.0-R4.2 (PM 0.0-R2.6) in Solano County; 2) Upgrade SR 12/29 intersection to an interchange, located in Napa County; and	NOP	02/21/2003

Neg	02/21/2003
2003012087	Wood Processing and Alternative Cover Frequency at Mono County Disposal Sites Mono County --Mono In general, the project consists of two components, namely: 1) the temporary on-site and subsequent processing of clean wood waste into wood chips at all Mono County disposal sites; and, 2) the application of compacted soil cover on constructing and demolition (C&D) wastes at a minimum frequency of once every 90 days at the County's five smaller landfills. The purpose of shredding wood waste is to reduce the amount of material being buried in the County's landfills and to meet State-mandated waste diversion goals. Due to the inert nature of C&D waste, the low rate of C&D waste generation, and the dry climate in its high desert setting, the Mono County Department of Public Works proposes to cover this material on a quarterly basis rather than daily. Public Works has petitioned the Mono County Health Department to approve the proposed alternative cover frequency pursuant to section 20680 (f), Title 27, California Code of Regulations (27 CCR 20680 (1). The proposed expanded site will be a total of 6.2 +/- acres.	NOD	
2002092091	Feliz Creek Bridge Scour Repair/Safety Project Caltrans --Mendocino The Project proposes to widen and retrofit for scour the existing bridge over Feliz Creek on State Route 101, PM 10.2 - 11.2, just south of the community of Hopland in Mendocino County. The widened portions of the structure will be supported by new 1.2 meter diameter cast-in-steel-shell (CISS) piles. One new CISS pile will be placed on each side of every existing support bent. These piles will be driven into place using either an impact hammer or vibratory hammer supported by a crane. The new CISS supports will be tied to the existing bent by constructing a newer and larger bent cap cast around the existing cap. The form work for the new bent cap will attach directly to the supports and will not be constructed in the stream channel. To further strengthen the foundation system concrete in-fill walls will be added between the existing piers. These walls will extend down from the new bent cap into the channel bottom approximately 0.3 meters. It may be necessary to remove groundwater that seeps into the holes dug for the in-fill walls. All water and sediment removed from the creek during construction will be pumped into a settling basin and allowed to evaporate or seep back into the ground. Bridge deck construction will take place from the existing structure and new bents. Access to the streambed by equipment will be necessary to construct the new CISS supports and in-fill walls. Access to the creek will be necessary from all four corners of the bridge to allow for placement of construction equipment. A temporary construction staging/ storage area is proposed north of Feliz Creek between Highway 101 and Mountain House Road.	NOD

2000062092	The Institute Golf Course Morgan Hill, City of Morgan Hill--Santa Clara The proposed application and project that is addressed in this EIR is a request for site approval amendment to a previously approved grading permit, zoning amendment and a conditional use permit for the operation of an 18-hole private golf course on approximately 192 acres. The conditional use permit would also include the conversion of an existing 58,946 square foot restaurant building into a 58,550 square foot conference center and library for the American Institute of Mathematics (a mathematics research institute).	EIR	03/10/2003
2002061050	Lindbergh Educational Village Lynwood Unified School District Lynwood--Los Angeles The Lynwood Unified School District has prepared a Draft EIR on the proposed Lindbergh Educational Village, which consists of new middle school and reconfiguration of recreational uses and vehicular drop-off at the adjacent existing Lindbergh Elementary School. The project site is approximately 6 acres in area. The project site is composed of three areas: (1) the southerly portion of the existing Lindbergh Elementary School (approximately 2.7 acres) - including vehicular access to the school and outdoor play areas; (2) Los Amigos Park (approximately 2.3 acres); and (3) residential units that bisect the park (approximately 1 acre). The middle school would accommodate 900 middle school students. The proposed project would alleviate overcrowding at existing Lynwood Unified School District middle schools by allowing the transfer of currently enrolled students to the new location and accommodating future enrollment demand from anticipated new and existing residents. The District proposes to acquire the 9 existing residential dwelling units (one of which also functions as a day care facility) and the park that are located on the site.	EIR	03/10/2003

	change the land use designation of the 7.3-acre westerly portion of the subject site from Light Industrial (LI) to South Poway Commercial (SPC), (2) a Tentative Parcel Map to subdivide the subject site into 3 separate properties; (3) street vacation of a portion of the public right-of-way on Gregg Court, (4) a Development Review for land use entitlement for construction of the buildings and other site improvements, (5) a Conditional Use Permit for a fast food/drive-thru restaurant, and (6) a comprehensive sign program.		
2003011114	Encinitas Art Ranch Encinitas, City of Encinitas--San Diego The project consists of amendments to the Encinitas General Plan, Local Coastal Program Implementation Plan and Zoning Map and approval of a Major Use Permit for a Planned Commercial Development on 2.17 acres. The amendments would rezone the subject property from "R3" (Residential) to "GC-PCD" (General Commercial-Planned Commercial Development). The proposed on-site uses would be limited to art and art-related activities. No development is proposed at this time.	Neg	02/24/2003
2003011115	Monterey County Government Center, Salinas Monterey County Salinas--Monterey The Government Center project will consist of three separate main buildings, comprising a total of 306,000 square feet at buildout. These structures include a new Administration Building and the interior renovation of the North Courts Wing and the East/West Wings. Guided by the 2001 Facilities Master Plan, the project will require a series of phased efforts to provide new and expanded facilities at the existing Courthouse Complex. These projects include: - Construction of a new 3-story building on the site to accommodate county administrative functions; - A phased renovation of the 1968 North Wing of the Courthouse to be occupied by the county trial courts; and - A phased renovation of the 1937 East and West Wings of the Courthouse to be occupied by courts-related county functions. The redeveloped Government Center will house five functional groups: Administrative Leadership, Finance, Land Use, State Trial Courts and County Courts-Related Departments. The existing location in downtown Salinas makes use of considerable owned assets and infrastructure and would strengthen the historic presence of the County government as an anchor in the City. The complex will serve as the headquarters for the County, and will include technology supported workspaces and meeting rooms.	Neg	02/24/2003
2003011116	Grossmont College Science Building Grossmont-Cuyamaca Comm. College District El Cajon--San Diego The proposed project consists of construction a new science building on campus consisting of physical science and chemistry laboratories, and science learning center. The proposed project also involves future renovation of existing laboratory space vacated by the project.	Neg	02/24/2003

2003011117	Cuyamaca College Science and Technology Mall Grossmont-Cuyamaca Comm. College District El Cajon--San Diego The proposed project consists of construction of a new physical science and computer information/art laboratory building on campus and renovation of vacated space. Existing temporary buildings on the site should also be relocated on campus. The proposed project would replace existing inadequate facilities on campus.	Neg	02/24/2003
2003012090	Resource Recovery Program East Bay Municipal Utility District Oakland--Alameda East Bay Municipal Utility District (EBMUD) is proposing to implement a long-term "Resource Recovery Program" at its Main Wastewater Treatment Plant in Oakland as an expansion of its current hauled waste acceptance program. The purpose of the project is to more fully utilize existing wastewater treatment plant capacity and increase on-site power generation by accepting compatible waste streams hauled to the Main Wastewater Treatment Plant. In doing so, EBMUD would provide a needed service to nearby communities by reducing the amount of solid waste disposed at area landfills. Acceptance of hauled waste at the treatment plant also provides EBMUD with the ability to generate additional power for facility operations through increased gas production at the facility's digesters. This lower operating costs, as well as decreases demand on the community's power grid.	Neg	02/24/2003
2003012091	General Plan Amendment, Housing Element Update American Canyon, City of American Canyon--Napa The 2000 Housing Element update is a comprehensive statement by the City of American Canyon of its current and future housing needs and proposed actions to facilitate the provision of housing to meet those needs at all income levels. The Housing Element does not require the City or others to construct this housing, but merely determines whether the City can accommodate it's regional housing allocation by the Association of Bay Area Government (ABAG).	Neg	02/24/2003
2003012092	Hidden Meadows Residential Subdivision Fairfield, City of Fairfield--Solano The proposed development consists of a residential subdivision of an approximately 45-acre property totaling 157 lots for single-family detached houses. The property is not currently located inside the Fairfield City limits and an annexation and zoning are required. The proposed zoning for the property is RLM:6 (Residential Low Medium Density, 6,000 square foot minimum lot size), RL:8 (Residential Low Density, 8,000 square foot minimum lot size), and OSR (Open Space Recreation). The project includes the provision of second dwelling units on as many as 58 of the proposed lots. The project also includes improvements related to the residential subdivision, including linear trail system, detention/sedimentation basin, and road improvements to connect the development to Mangels Boulevard located to the south. 2002072102	Mendocino County Regional Transportation Plan Mendocino County --Mendocino The Mendocino Council of Governments (MCOG) is revising its Regional Transportation Plan (RTP). The RTP provides an assessment of the current modes of transportation in the county and identifies potential new travel options. It predicts future needs for travel and the movement of goods. The RTP includes a list of specific actions and improvements to facilitate travel and accessibility. The list of specific actions include major highway and local road construction projects, highway and street maintenance projects, bridge construction and repair, improvements to and expansion of airports, rehabilitation of rail lines, construction of bike lanes and bikeways, construction of mass transit transfer centers, improvements to harbors, and a variety of other transportation related projects.	FIN	
1994043014	Coliseum Gardens Housing Project Oakland, City of Oakland--Alameda The demolition and replacement of 178 affordable residential units and industrial uses with up to 480 affordable residential units, new social services, relocation and renovation of an existing city park, site planning improvements and street relocation. Development would occur in phases over a four year period.	NOP	02/25/2003
2002022004	Silicon Valley Rapid Transit Corridor-BART Extension to Milpitas, San Jose, and Santa Clara, CA Santa Clara Valley Transportation Authority Milpitas, San Jose, Santa Clara--Santa Clara The project consists of an approximate 16.3-mile extension of the BART system, which would begin at the planned Warm Springs BART station in Fremont, extend along the Union Pacific Railroad line to Milpitas, and the continue to 28th and Santa Clara Streets in San Jose. From there, BART would leave the railroad right-of-way, tunneling under downtown San Jose to the Diridon Caltrain Station. The BART extension would then turn north under the Caltrain line and terminate at the Santa Clara Station. Project also includes core system parking expansion options.	NOP	02/25/2003

	microorganisms, an oxygen injection system, and vertical and horizontal slotted casings that could serve as groundwater extraction points in the trench, if needed. The hydrocarbons in the groundwater will be biodegraded by a proprietary microbial culture (mixture). Oxygen will be injected into the groundwater within the trench to enhance biological activity. Groundwater monitoring wells will also be installed adjacent to the trench to monitor the effectiveness of the treatment.		
2002121079	General Plan Amendment to Public Safety and Related Elements Regarding Airport Land Use Compatibility Hemet, City of Hemet--Riverside The proposed General Plan Amendment would remove all specific numerical, narrative, and graphically displayed criteria referring to airport safety from the Public Safety and related General Plan Elements and replace these with general language requiring compatibility with applicable Airport Land Use Commission policies.	SIR	03/12/2003
2001122063	Anderson Creek Bridge Replacement Caltrans #3 Booneville--Mendocino The proposed project is the replacement of the Anderson Creek Bridge at PM 28.2 on State Route 128 near the town of Booneville in Mendocino County. The existing bridge is a three-span concrete slab and steel girder structure on spread footings. The proposed new structure will completely span Anderson Creek with a three lane single-span structure. Anderson Creek is a perennial stream and a stream diversion will be necessary during the construction window. The proposed stream diversion will be accomplished with a series of 18" - 36" diameter culverts placed at grade. A layer of visquine fabric will be placed over the culverts and then covered with a layer of gravel to create the work pad / crossing to install the bridge false work. Large equipment will need to access Anderson Creek from both sides of the bridge since the bridge may not be high enough for equipment to pass under it. The access from the downstream side of the bridge will result in the loss of some riparian vegetation, primarily alder, willow, and maple.	NOD	
2002021004	Los Angeles Pierce College Facilities Master Plan Los Angeles Community College District Los Angeles, City of--Los Angeles The Los Angeles Pierce College Facilities Master Plan proposes new construction and renovation of existing facilities on campus. Master Plan projects to be funded by Proposition A bond money include but are not limited to: new and enhanced student classrooms and resources, administrative and faculty offices, maintenance and operation facilities, agricultural facilities and an equestrian education center that would enhance Pearce College's agricultural curriculum and community services programs. In addition to the projects funded by Proposition A, the Master Plan also proposes several other new facilities to expand the College's educational opportunities.	NOD	
2002061125	Sycamore Hills Elementary School Colton Joint Unified School District Fontana--San Bernardino The proposed project is the acquisition, construction, and operation of a new elementary school for grades K-6 on approximately 12 acres of land. The school could ultimately serve up to 800 students and 40 staff at any one time.	NOD

2003019043	Allied Health / Aviation Lab Glendale Community College District Glendale--Los Angeles Classrooms and laboratories for nursing program. Hangar and laboratory for aviation program.	NOD	
2003018351	Road Widening and Culvert Extension, Thompson Creek Fish & Game #3 --Lake SAA R3-2002-0986 The project will extend two existing culverts to accommodate a widened roadway. The impacts will occur on Thompson Creek and the Thompson Creek overflow, PM 38.63 and PM 38.55, State Route 29 in Lake County. In addition to the culvert extensions, new head walls and wing walls will be constructed at the inlets and outlets of the culverts and rock slope protection placed at the NE outlet of the Thompson Creek overflow. Access the stream channel will require the removal of some riparian vegetation including willow while the lane widening will also result in the loss of some valley oaks. Impacted vegetation will be replanted upon project completion.	NOE	
2003018352	Uvas Creek Scour Repair Fish & Game #3 Gilroy--Santa Clara Issuance of a Streambed Alteration Agreement Number R3-2002-0972 pursuant to Fish and Game Code Section 1601 for the following project. The proposed project is a scour remediation of the bridge piers on Uvas Creek Bridge, PM 6.4 on State Route 152 in Santa Clara County near the City of Gilroy, California. The scour repair will consist of the temporary placement of 2-3 ton rock around the base of the existing piers. The areas around the piers will be hand excavated and the rock placed using heavy equipment. Access to the work area will require the removal of willow and possibly other riparian vegetation. Any vegetation removed will be replanted upon completion of the project. A revegetation plan will be developed prior to any vegetation removal.	NOE	
2003018353	Archaeological Evaluation of Site by Augering for Future Culvert Extension Fish & Game #3 --Lake Issuance of a Streambed Alteration Agreement Number R3-2002-1007 pursuant to Fish and Game Code Section 1601. The project is located in Lake County along State Route 20 at PM 17.2. This project is only for 10 hand auger holes to be bored into the bed of Lucerne Creek. The auger bore testing is for archaeological studies prior to a larger culvert extension project. There is no riparian vegetation in this area and the work will be done during the summer months when the creek is dry. The actual work will employ a 10 cm diameter bucket auger. Upon completion of the test hole, the material will be placed back into the holes and compacted to reduce future erosion.	NOE	
2003018354	Transfer of Coverage to El Dorado County APN 31-26-05 Tahoe Conservancy South Lake Tahoe--El Dorado Project consists of the sale and transfer of 59 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which an addition to a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE

2003018355	<p>Three-Year Variance to the City of Pinole to Conduct Residential Household Hazardous Waste (HHW) Collections - HHWVAR021203</p> <p>Toxic Substances Control, Department of Pinole--Contra Costa</p> <p>Variance to the City of Pinole from hazardous waste facility permit requirements. The variance authorizes the City of Pinole to conduct residential collections of household hazardous waste. The collections provide appropriate means for the elderly and handicapped, and others unable to participate in the regular HHW collection program of disposing of hazardous waste. The variance is based on the evidence that: 1. The residential collections will meet strict standards and wastes are managed through the HHW collection program; 2. Only personnel trained in hazardous waste management shall handle or package hazardous waste; and, 3. All collected wastes will be transported by a registered hazardous waste hauler to permitted HHW facility or other facility authorized to receive hazardous waste.</p>	NOE	
2003018356	<p>HHWVAR970202-Three-Year Variance Renewal for Merced County's Conditionally Exempt Small Quantity Generator (CESQG) Program</p> <p>Toxic Substances Control, Department of --Merced</p> <p>Issuance of a variance of hazardous waste manifesting and transportation requirements for Merced County's participating CESQGs. The variance would allow transportation of up to 100g (220 lbs. or 27 gallons) of hazardous wastes by participating CESQG businesses to household hazardous waste collection facilities and events sponsored in Merced County. Authorized household hazardous waste collection facilities (HHWCFs) are allowed to accept up to 100 kg of hazardous waste from CESQG in a calendar month. This variance would allow the CESQG to transfer the allowable monthly limit at one time, rather than make several trips. The HHWCFs provide an appropriate and safe means of disposal for hazardous waste generation by small quantity generators.</p>	NOE	
2003018357	<p>McCormick Selph Inc. (MSI), Class 3 Hazardous Waste Facility Permit Modification</p> <p>Toxic Substances Control, Department of Hollister--San Benito</p> <p>Modifications to the MSI's Hazardous Waste Facility Permit to delete completed corrective measures, revise the facility name, and update the operations plan. The facility was previously known as Teledyne Ryan Aeronautical/McCormick Selph Ordinance.</p>	NOE	
2003018358	<p>Long Beach III Former Manufactured Gas Plant Deed Restriction Record of Decision</p> <p>Toxic Substances Control, Department of Long Beach--Los Angeles</p> <p>This project involves the implementation of a deed restriction to be placed on the Long Beach III Former Manufactured Gas Plant (site) to manage the polyaromatic hydrocarbon compounds (PAHs), metals (lead and arsenic) and fuel constituents found in soils at the site. The site, which is five acres and asphalt covered, is currently owned by the City of Long Beach and managed by the Port of Long Beach. The site is currently occupied under lease by Toyota Motor Sales, Inc., which uses it for the storage of automobiles. The project site is located in an industrialized area, zoned M-3 (Heavy Industrial) by the City, and the adjacent land use primarily consists of commercial and industrial facilities associated with shipping and petroleum industries. The objective of this deed restriction is to ensure that the site use remains industrial, consistent with human health risks</p>	NOE

2003018360	HHWVAR021202 - Three-Year Variance to Ventura County to Collect and Transport Conditionally Exempt Small Quantity Generator (CESQG) Wastes Toxic Substances Control, Department of --Ventura Variance to Ventura County from hazardous waste permit and manifest requirements of Health and Safety Code Sections 25201 and 25160. The variance authorizes Ventura County to collect and to transport CESQG wastes using a registered transporter. Individual receipts will be provided to the CESQG and the collected wastes will be delivered under bill-of-lading to a permit-by-rule household hazardous waste collection facility for further management. The collections provide appropriate means for CESQGs to dispose of hazardous waste. Ventura County is additionally authorized to collect historical hazardous waste accumulations (up to 1,000 kilograms) from qualified CESQGs. These collections are authorized on a one-time basis per business location. As a condition of any accumulation collections, the businesses will be further required to participate in a regular drop off or collection program. The variance is based on the evidence that: 1. The variance requirements are protective of human health and safety, and the environment; 2. Only personnel trained in hazardous waste management shall handle and transport hazardous waste and; 3. All collected wastes will be further managed by authorized facilities.	NOE

2003012109	Phase II Quincy Water System Improvements Quincy Community Services District Quincy--Plumas The proposed project would entail replacing 11,310 feet of existing water distribution system pipeline and replacing and installing new fire hydrants. The purpose of the project is to replace the old water distribution system in completion of the water infrastructure improvements on those streets identified in the project. The existing mains in the project area were constructed decades ago and consist of corroding steel pipeline, old and leaking valves, and leaking water service lines. The District must repair several sections of leaking pipeline in the project area each year; this affects water supply to businesses and residences because it requires shutting down a section of the distribution system. Water leakage and main breaks also cause water losses, putting stress on the District's water supply system and increasing the risk of contamination. The pipelines in the project area were identified as needing replacement in the Water, Sewer, and Wastewater Treatment Master Plan prepared by Carollo Engineers (Carollo Engineers 2001).	Neg	02/27/2003
2003012110	Basalite Facility Modernization Dixon, City of Dixon--Solano The +/- 52 acre project site currently supports manufacturing, storage, administration, and parking facilities for a concrete block/dry mix manufacturer. The proposed project includes construction of an additional Concrete Product plant (70,000 sq. ft.) and a Dry Mix facility (46,800 sq.ft) on the northern +/-25 acres of the site. This portion of the site is currently undeveloped. The proposed construction also includes relocation and expansion of detention basins, new parking facilities, a new storage area, extension of Fitzgerald Drive, and provision of new internal roadways. NOP	02/28/2003
2003012113	Ravenswood Business District Zoning & General Plan Amendments East Palo Alto, City of East Palo Alto--San Mateo The proposed Ravenswood Business District ("RBD" or "project site") is comprised of approximately 140-acres, exclusive of streets. The area presently includes a variety of industrial, and commercial uses, as well as some residential and agricultural uses. Approximately 45 acres within the development are undeveloped, 20 acres of which are adjacent to the Ravenswood Open Space Preserve. The proposed General Plan amendment and rezoning of the Ravenswood Industrial Area could serve as a catalyst for development of the Ravenswood Business District. The proposed district would be divided into four core areas to include workplace Core, Business District Center, and Mixed Use and Residential Transition. Workplace Core District is intended to feature a variety of public spaces, with buildings facing such spaces to enhance spatial quality with architectural forms. The Business District Center is intended to provide well-crafted architectural details appropriate for the most prominent street front in the district. The Mixed-Use Transition District is intended for public and quasi-public buildings and Research & Development. The Residential Transition District is intended for multi-residential development. Renovation of existing areas shall include functional modifications, and code upgrades such a compliance with the American with Disabilities fire alarm systems and structure work. The additional space will include lounge/study areas, a small 200-seat theater, meeting rooms, club and organization workspace, retail space, a radio station, and office space. Portions of the existing building will be demolished for functional space arrangements and proper circulation. Portions of the new areas will be built on top of the existing one story building, which will require structural upgrades. The new addition will complement the existing building in use of material and space arrangements.</p>	NOD	
1998031150	<p>Agreement Regarding Proposed Stream Alteration (SAA R5-2002-0115) for the Construction of the San Juan Hills High School</p> <p>San Juan Capistrano, City of</p> <p>San Juan Capistrano--Orange</p> <p>California Department of Fish and Game is intending to execute a Lake and Streambed Alteration Agreement (SAA#R5-2002-0115) pursuant to section 1601 of the Fish and Game Code to the project applicant, Capistrano Unified School District, attn: Mr. David A. Doomey and Concorde Development/Whispering Hills LLC, attn: Mr. Dennis Gage. This project will include the construction of approximately 220,000 square feet of buildings that will house classrooms, administrative offices, a performing arts facility, athletic fields, a lighted stadium, a swimming facility, an outdoor amphitheater, and parking facilities.</p>	NOD	
2001081111	<p>Galena Street/Interstate 15 Interchange</p> <p>Riverside County Transportation & Land Management Agency</p> <p>--Riverside</p> <p>Proposal to construct new interchange at Galena Street on Interstate 15 between Limonite Avenue and Highway 60.</p>	NOD	
2001101102	<p>Agreement Regarding Proposed Stream Alteration (SAA #R5-2002-0349) to Install a Check Dam in Tick Canyon Wash Under SR 14, Los Angeles County</p> <p>Caltrans #7</p> <p>Santa Clarita--Los Angeles</p> <p>The California Department of Fish and Game has issued an Agreement Regarding Proposed Stream Alteration (SAA#R5-2002-0349) ("agreement") to Caltrans ("applicant") in conjunction with the applicant's proposal to alter the streambed by installing a check dam in Tick Canyon Wash just south of the State Route 14 bridge to reduce erosion and alleviate scour at the bridge piles. The check dam structure would consist of an underground anchor wall (7 feet downstream of existing bridge railing), a 30-foot side concrete retaining wall (40 feet downstream from the anchor wall), a series of underground rods connecting the anchor wall to the retaining wall, and rock riprap from the retaining wall to 20 feet downstream. All impacted native vegetation in the construction area (0.08 acre of riparian vegetation and 0.14 acre of associated upland vegetation) is currently mitigation for the SR 14 HOV lane project. The Operator proposes to restore a portion of the drainage downstream of the work site, re-plant upland areas as before, and plant native plant cuttings in the riprap.</p>	NOD

2001101146	<p>Colorado River Aqueduct Conveyance Reliability Program, 2002 Shutdown Repairs Metropolitan Water District of Southern California --Riverside, San Bernardino</p> <p>The addendum addresses minor project modifications to the previously approved CRA Conveyance Reliability Program, 2002 Shutdown Repairs Program. The proposed modifications include: increases in the amount of deteriorated canal liner that require repair; utilization of an additional two-week shutdown to conduct remaining canal liner repairs and other work as originally described; and installation of a rock netting on the slope of the bedrock cut at Mile Marker 77.</p>	NOD	
2002011064	<p>Sabre Springs Transit Center Metropolitan Transit Development Board San Diego--San Diego</p> <p>The proposed project consists of the development of a 5.64-acre transit center that would include ten bus bays, an approximately 167-vehicle park-and-ride lot, a kiss and ride drop-off area, transit-related furnishings including shelters and benches and an access road connecting to a proposed Direct Access Ramp (DAR) in conjunction with the California Department of Transportation's (Caltrans) Interstate I-15 Managed Lanes Project. The DAR would provide direct access to and from I-15 HOV lanes and is not part of the proposed project. Landscaping would be installed along the site perimeter and in select areas within the proposed facility. Overhead lighting would be installed, where appropriate, to provide adequate lighting during early morning and nighttime operations. A retaining wall would be constructed along the north side of the proposed access road from the transit center to the DAR. Proposed circulation improvements would include provision of two vehicular access points (one from Sabre Springs Parkway and another from Evening Creek Drive), installation of a traffic signal interconnect system between Ted Williams Parkway and Evening Creek Drive, and provision of several vehicular travel lane configurations at the proposed access points and within the proposed transit center.</p>	NOD	
2002031001	<p>2002 Water Purchase Agreement with Kern County Water Agency for the Environmental Water Account Water Resources, Department of Bakersfield--Kern</p> <p>The Addendum to the Negative Declaration describes additional technical details and measures that DWR will take to facilitate and complete part of the project as originally described and analyzed in the Negative Declaration. KCWA will use existing facilities to deliver up to 36,776 acre-feet of water to DWR through pump-in to the CA Aqueduct. DWR will exchange an equal quantity of water with MWD in O'Neill Forebay of San Luis Reservoir. These technical details did not change the analyses and impact determinations in the Negative Declaration or necessitate the need to prepare a subsequent or supplemental Negative Declaration or EIR.</p>	NOD

2003018407	<p>Eastbound I-80 Slipout Repair Caltrans #3 --Yolo</p> <p>Caltrans proposes to repair a slipout on the embankment adjacent to eastbound Interstate 80. This location contains failed material that will be removed and replaced with engineered fill. The failed material requires reconstruction to provide a more stable slope foundation to lessen the possibility of future slope failures. Slope materials will be removed from the shoulder, placed along the adjacent roadbed to dry, and combined with engineered fill and compacted to reconstruct the embankment.</p>	NOE	
2003018408	<p>Moon Lim Lee Safety Roadside Rest Area Caltrans #2 --Trinity</p> <p>The existing tar and gravel roof on the restroom, at the Moon Lim Lee Safety Roadside Rest Area, will be replaced with metal roofing. The existing roofing is in need of replacement. This CE covers the project and requires environmentally sound disposal of existing roof material. Work and staging areas should be confined to Rest area property.</p>	NOE	
2003018409	<p>One-Year Water Transfer Option Agreements with Sacramento River Settlement Contractors Metropolitan Water District of Southern California --Colusa, Los Angeles, Sacramento, Sutter, Yolo</p> <p>The Metropolitan Water District of Southern California proposes to enter into one-year water transfer option agreements with Sacramento River Settlement Contractors, including Reclamation District 108, Sutter Mutual Water Company, Natomas Central Mutual Water Company River Garden Farms, Meridian Farms Mutual Water Company, Pelger Mutual Water Company, and Pleasant-Grove-Verona Mutual Water Company. Under the proposed project, Sacramento River Settlement Contractors would make up to 80,710 acre-feet of water available to Metropolitan under an option contract through cropland idling, through shifting from higher water use crops to lower water use crops, or through groundwater substitution. The water would then be transferred to Metropolitan, the California Department of Water Resources, or other water users within the Central Valley Project or State Water Project service areas.</p>	NOE	
2003018410	<p>Exploratory Excavations of San Diego Pipeline Nos. 4 and 5 and installation of Fencing Along East Benton Road Near Lake Skinner Metropolitan Water District of Southern California --Riverside</p> <p>The Metropolitan Water District of Southern California proposes to excavate two locations directly over Metropolitan's San Diego Pipeline Nos. 4 and 5, which extend along Margarita Street in the city of Temecula. The excavations are being performed to determine whether sagging asphalt and wet conditions in this area of Margarita Road are a result of leaking pipelines. A vacuum excavator will be used to remove materials to a depth of 10-15 feet at one location in the road and one location in the turf area 40 to 50 feet east of the road. Work will be performed using a jackhammer, generator, vacuum excavator, and several pick-up trucks. In addition, Metropolitan has purchased several properties east of Lake Skinner within unincorporated areas of Riverside County. Metropolitan proposes to install gates, gate posts, and fencing on these properties along East Benton Road to eliminate access by unauthorized vehicles and to prevent unauthorized dumping of trash on the properties. Guard rails and boulders would be used to limit access</p>	NOE

2003011155	Central Police Facility San Diego, City of --San Diego The proposed project consists of the redevelopment of the areas surrounding the San Diego Police Pistol Range (SDPPR) to accommodate relocation of the San Diego Police Department's Vehicle Maintenance (VM) facility which currently occupies the site of the proposed New Main Library at 12th and K Streets. As a result, the applicant has requested a community planned general plan amendment for 13.36 acres of the 16.8-acre site. The proposed amendment would re-designate 5.36 acres of the site from Park to Institutional, 2.0 acres from Open Space to Institutional, 2.0 acres from Open Space to Institutional, and 6.0 acres from Multi-Family Residential to Open Space.	Neg	03/03/2003
2003011156	City of San Diego Inclusionary Housing Ordinance San Diego, City of --San Diego A citywide inclusionary housing ordinance that would require 10% of all new residential development of two or more units, or the residential portion of all multi-use projects with two or more units to be affordable housing.	Neg	03/03/2003
2003012117	Tract Map 02-45, Benny Benson Tehama County --Tehama To subdivide an existing 6 acre parcel into two 0.5 acre parcels, a 0.54 acre parcel, a 1.18 acre parcel with a remaining lands parcel of 3.11 acres.	Neg	03/03/2003
2003012118	Henning Rezone and Tentative Parcel Map EG-02-313 Elk Grove, City of Elk Grove--Sacramento The project consists of a Rezone from AR-10 to RD-4 and a Tentative Parcel Map to split a 2.5 acre parcel into four (4) parcels.	Neg	03/03/2003
2003012122	PA-0200370 (QX) San Joaquin Community Development Department Escalon--San Joaquin This is a Quarry Excavation Application to remove approximately 2.4 million cubic yards of rock, sand, and gravel from approximately 71-acres of an 80-acre site over a 12-year period. The mining will occur in three phases. Phase 1 will consist of 30-acres to be reclaimed by 2009. Phase 2 will consist of 15-acres to be reclaimed by 2011. Phase 3 will consist of 26 acres to be reclaimed by 2015. The material that is excavated will be transported approximately 0.10 miles west on River Road to an existing processing facility. Reclamation is proposed to be continuous and concurrent with mining. The quarry will be replanted in either walnuts or almonds in 15 to 30 acre increments.	Neg	03/03/2003
2003012123	Lahontan Regional Board Waiver of WDRs for Certain Projects Under 1 Acre of Disturbance and Regulated by TRPA Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe South Lake Tahoe--El Dorado Adoption of resolution 1) waiving waste discharge requirements for certain types of projects and construction activity regulated by TRPA and involving less than one acre of land disturbance and 2) authorizing Executive Officer to enter into a revised MOU with TRPA, MOU will outline the categories of affected projects, conditions of the waiver, roles and responsibilities of each agency and auditing provisions. <u>Documents Received on Friday, January 31, 2003</u>			
2003012125	Lime Neutralization of Acidic Drainage at Leviathan Mine Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe --Alpine The proposed project consists of operating the existing lime neutralization systems located adjacent to Pond 1 and Pond 4 to treat AMD contained in the evaporation pond system and AMD emanating from the CUD and the Delta Seep. Treated effluent that meets discharge criteria (as specified by USEPA) would be discharged to Leviathan Creek. Sludge exhibits hazardous characteristics, in which case the sludge will be disposed at an offsite Class 1 hazardous waste disposal facility. The PUD underlies the Pit and captures water that infiltrates surface soils in the Pit and conveys that water to the evaporation pond system. A surface water collection system was installed in the Pit as part of the 1985 abatement system and diverts surface runoff from the Pit to Leviathan Creek.	Neg	03/03/2003
2003021009	Stemmer Creel-Foothill Bridge Replacement Project ER-188-02 San Luis Obispo, City of -- 1) Dewatering and diversion of Stenner Creek; 2) demolition and removal of existing culverted bridge; 3) construction of new span bridge structure; and, 4) site restoration.	Neg	03/04/2003
2003022006	Mariposa Business and Travelers Center Annexation, Prezone, Tentative Map and Use Permit Project Stockton, City of Stockton--San Joaquin Construction and operation of a 64-unit hotel, a gas station/mini-market/fast food service facility, and a f service restaurant at the intersection of Mariposa Road and SR 99 West frontage Road.	Neg	03/04/2003
1985100817	Cordelia General Plan / Oakwood Hills Fairfield, City of Fairfield--Solano The California Department of Fish and Game (DFG) is executing a Lake and Streambed Alteration Agreement (R3-2002-0755) pursuant to Section 1603 of the Fish and Game Code to the project applicant, Steve Abbs / Davidon Homes. The Operator proposes to build the Eastridge Hills Development which includes 81 residential lots on 75 acres of land formerly used for cattle grazing located approximately 1.6 miles north of the I-80 / I-680 interchange, in the City of Fairfield, Solano County. As part of the project, the operator proposes to install a road crossing where the proposed Oakridge Drive crosses an unnamed tributary to Green Valley Creek. Also, an overchute is proposed to carry excess storm water over the Putah South Canal (PSC).	NOD	
1992052017	Granite Bay Townhouse Vesting Subdivision Map Modesto, City of Modesto--Stanislaus Rezone from Neighborhood Commercial Zone (C-1) to Planned Development Zone (P-D 558) to allow development of a car wash in conjunction with an existing convenience store and service station.	NOD	
1992052017	Granite Bay Townhouse Vesting Subdivision Map Modesto, City of Modesto--Stanislaus This is a vesting tentative subdivision map to divide 2.19 acres into twenty-four	NOD

	lots. The property is located on the southeast corner of Carson Oak Drive and Dridgewood Way. Each lot is proposed to contain one townhouse unit and its associated parking.		
1992053022	Castro Ranch Richmond, City of Richmond--Contra Costa The California Department of Fish and Game (DFG) is executing a Lake and Streambed Alteration Agreement (R3-2002-0750) pursuant to Section 1603 of the Fish and Game Code to the project applicant, Rick Dame / Barra L.P. As part of the development of a 35-acre site into a 51-unit residential subdivision known as Castro Ranch and/or The Oaks, the operator will impact Castro Creek and an unnamed tributary, south east of Castro Ranch Road and Amend Road in El Sobrante, Contra Costa County.	NOD	
2000012058	Del Norte County General Plan & Local Coastal Plan Update-Cultural Resources and Scenic Resources Chapters-GPA-00040 Del Norte County Crescent City--Del Norte Update of the Del Norte General Plan/Coastal Plan (except Housing Element) for the unincorporated County area, including related Coastal Implementation Program Zoning Amendments.	NOD	
2000052017	South Fork of Gallinas Creek Tributary Free-Span Bridge San Rafael, City of San Rafael--Marin The Operator proposes to construct a clear-span bridge for a road crossing of an unnamed stream in San Rafael, Marin County, as part of a 134-unit residential development. The stream on which this project is located is an ephemeral tributary which eventually drains into the Civic Center lagoon and the South Fork of Gallinas Creek, thence San Pablo Bay. Also included in the project will be the installation of several underground utility lines at the bridge site, and grade control structures at the upstream and will affect approximately 40 linear feet of channel, resulting in an impact of 720 square feet of stream channel. Additionally, drainage structures will be constructed and/or rebuilt where the channel enters and exits the property to allow the continued flow through the existing channel. Construction and modification of these structures is expected to impact approximately 100 square feet. Approximately 0.37 acres of wetland and about four acres of native grassland will be created adjacent to the stream as part of the mitigation for the residential development.	NOD	
2001111023	Sewer and Water Group Job 616 San Diego, City of San Diego--San Diego The replacement of approximately 7,319 linear feet of existing 6-inch and 8-inch sewer mains with new 8-inch sewer mains.	NOD	
2001121065	Escondido Research and Technology Center (ERTC) Escondido, City of Escondido--San Diego CDFG is executing a Lake and Streambed Alteration Agreement pursuant to Section 1603 (SAA #R5-2002-0363) of the Fish and Game Code to project applicant Mr. James McCann representing JRMC Real Estate Corporation. The application proposes to alter the streambed within six unnamed drainages, tributaries to Escondido Creek, to accommodate the construction of Escondido	NOD

	Research and Technology Center. The project is the development of a multi-use business park with associated utilities and infrastructure, including a major roadway (proposed Citracado Parkway) and an electric power generating facility. A mitigation area for wetland impacts resulting from the project is also located on-site. The project impacts 0.22 acres of streambed and 0.03 acre seasonal pond.		
2002072055	Watershed Science Research Center University of California Davis--Yolo Construct a two-story building with 19,000 gross square feet on an existing parking lot. Building will be used for watershed science research.	NOD	
2002092052	Berths 32 and 33 Wharves Rehabilitation Project Oakland, Port of Oakland--Alameda Modify existing wharves at Berths 32 and 33 to be consistent with adjacent Berth 30 and capable of accommodating the current generation of vessels by demolishing of a portion of the wharf and the addition of approximately 0.9 acre of wharf area.	NOD	
2002111041	Del Dios Water Tank Telecommunications Facility, ZAP 00-002, ZAP 00-063, ZAP 01-054, Log No. 94-08-026 A, B, C San Diego County Department of Planning and Land Use --San Diego The project proposes the combination of three telecommunication facilities, which is an expansion to a previously approved cellular facility, Major Use Permit Number P94-022, which was approved by the Planning Commission on November 15, 1994. Minor Use Permit, ZAP 00-063, is a proposal by Nextel Communications to construct, operate, and maintain and Enhanced Specialized Mobile Radio (ESMR) wireless telecommunications facility.	NOD	
2002121039	Granada Park Playground Project Alhambra, City of Alhambra--Los Angeles The replacement of playground equipment with new ADA accessible equipment, installation of new hardscape, including concrete and rubberized surfacing, installation of seating elements, and re-landscaping as necessary.	NOD	
2002122007	Tentative Map Application Map S-5-02, Placer Pine Subdivision, by Shasta Lake LLC Redding, City of Redding--Shasta Divide 22 acres into 44 lots for single-family homes.	NOD	
2002122016	Reconstruction of Berth 22 Wharf and Reconfiguration of Adjacent Yards Oakland, Port of Oakland--Alameda The main objectives of the project are to reconstruct the Berth 22 wharf to bring it to modern standards and to consolidate the yards of Berths 20 through 24. The project would include excavation and reconstruction of the Berth 22 embankment and dike to increase their seismic stability, reconstruction of the wharf, replacing the 2 existing cranes with 2 Post-Panamax cranes, and reconstructing the Berth 22 water and power supply as needed to serve the new facilities. The project would also include minor improvements to the Berths 21 through 24 yards such as removing fences and adjusting the pavement, demolishing buildings, relocating	NOD

	scales from Berth 24 gate to the Berth 21 gate (which will become the inbound gate for the Maersk-SeaLand terminal); closing the gate at Berth 23; and transforming the Berth 24 gate into the main outbound gate for the terminal. A portion of the Berth 24 project site is designated as a site in the list of hazardous materials sites compiled pursuant to Government Code 65962.5 ("Cortese List"). With implementation of mitigation measures identified in the Initial Study, potential significant impacts would be avoided, minimized, or reduced to a less than significant level.		
2002122104	<p>Virginia Mill Trail Repair Project Midpeninsula Regional Open Space District Woodside--San Mateo</p> <p>The project consists of repairs and construction along the lower reach of Virginia Mill Trail, an unpaved recreational trail located at El Corte de Madera Creek Open Space Preserve in San Mateo County. The 1997-98 El Nino storms rendered a substantial segment of existing trail unusable for recreational purposes. Federal Emergency Management Agency (FEMA) grants were awarded to the District for the trail to be rerouted, thus restoring the damaged trail portion while reopening a formerly closed logging road that will lead to a new bridge crossing and subsequently closing and restoring the damaged trail portion. Project construction will occur over an approximately eight to ten-week period. The project includes the following components: (1) Constructing a low rock wall at the cutbank slump failure, to minimize small scale soil sloping and reduce maintenance; (2) Reopening and improving an existing 1/2-mile former logging road as a replacement trail. Improvements include installation of a new culvert crossing along a spring-fed seasonal drainage and two ditch relief culverts; (3) Constructing a new 80-foot long pedestrian/equestrian/bicycle bridge, bridge abutments, and a 350-foot long, six-foot wide bridge access trail; (4) Modifying a large woody debris accumulation immediately upstream of a new bridge site to reduce the potential for facility damage and ensure public safety; (5) Closing and restoring the 3/4-mile damaged trail segment, including removal of several existing culverts.</p>	NOD	
2003019044	<p>Prewett Property Antioch, City of Antioch--Contra Costa</p> <p>The California Department of Fish and Game (DFG) is executing a Lake and Streambed Alteration Agreement (R3-2002-0942) pursuant to Section 1603 of the Fish and Game Code to the project applicant, Albert D. Seeno III / Discovery Builders Incorporated. The operator proposes to install a 48-inch outfall pipe on the east bank of Markley Creek, just south west of the intersection of James Donlon Boulevard and Somersville Road in Antioch, Contra Costa County. Prior to discharging into the creek, storm water runoff from a 2-year event will be contained in a basin constructed no closer than 15 feet from the top of the east bank. Water from the basin will eventually discharge into the creek at the toe of the east bank.</p>	NOD	
2003018414	<p>Noddin Elementary School Modernization of School Union Elementary School District San Jose--Santa Clara</p> <p>The school will be modernized, which will include installation of a new HVAC system; upgrading of the electrical, communications, and fire alarm systems; installing new cabinetry, reflooring, repainting and reroofing.</p>	NOE

2003018415	Lietz Elementary School Modernization of School Union Elementary School District San Jose--Santa Clara The school will be modernized, which will include installation of a new HVAC system; upgrading of the electrical, communications, and fire alarm systems; installing new cabinetry, reflooring, repainting and reroofing.	NOE	
2003018416	Dartmouth Middle School Modernization of School Union Elementary School District San Jose--Santa Clara The school will be modernized, which will include installation of a new HVAC system; upgrading of the electrical, communications, and fire alarm systems; installing new cabinetry, reflooring, repainting and reroofing. The old locker room building will be demolished and replaced by a new gymnasium/locker room/music room building. Also the administration/library building will have a small addition.	NOE	
2003018417	Stream Alteration Agreement NO. R4-2002-0149, Lewis Creek Fish & Game #4 Lindsay--Tulare The Project proposes to clear the channel bottom and lower 2/3 of channel banks of vegetation and debris. Maintenance of this channel will be completed once per calendar year for the term of this Agreement.	NOE	
2003018418	D&H Manufacturing Company, et al, Release of Chlorinated Solvents at 2301 Calle de Luna, Santa Clara Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland Santa Clara--Santa Clara This is an action for the protection of the environment.	NOE	
2003018419	Haystack Creek Horizontal Boring Fish & Game #3 Nipomo--San Luis Obispo SAA R3-2002-0891 The proposed project would use horizontal boring equipment to drill two, 12-inch diameter bores through the soil underneath Haystack Creek. The bores would be located within two feet of each other and both would be approximately 18 feet below the bottom of a concrete box culvert through which Haystack Creek passes underneath Thompson Road. The bores would also be located approximately 10 feet horizontally from the upstream edge of the concrete box culvert. A bore pit would be located approximately 43 feet on either side of the creek to accommodate drilling mud and capture returns. The bores would be lined with pipe to accommodate phone and cable lines in one pipe and electrical lines in the other. No activity will occur in the stream bank or on the surface of the stream channel or bed.	NOE	
2003018420	CSUS Bikeway Master Plan California State University, Sacramento Sacramento--Sacramento The proposed project consists of providing a well connected bikeway/path system at CSUS for students and the community that can accommodate both commute and recreational trips. This plan is consistent with the Campus Master Plan for the California State University, Sacramento located in the City of Sacramento, California.	NOE
